Cardif Services
BNP Paribas

Policy Management Agent

Analysis, verification and management of client operations on life insurance contracts.

Oct **2018 -** Jan **2020**

CIQUP
Faculty of Sciences
University of Porto

Research Fellow

Development of nanomaterials: carbon dots, silver island films and up-conversion nanoparticles for fluorescence-based biosensing applications.

First author publication and oral presentation at a conference.

May **2016 -** Aug **2016**

CEA
French Alternative
Energies and Atomic
Energy Commission

Engineering Intern

Characterization and study of the thermodynamic performances of an annealing furnace for p-type intrinsic doping of II-VI semiconductors and effects on material properties.

Two Scilab programs for online data acquisition and parameters control.

Sep **2013 -** Jan **2014**

MEDEX
by Guerbet

Laboratory Technician

Physical tests and measurements on medical equipments: injector of contrast media for computed tomography scanner and injector's disposables.

Apr **2013 -** Jun **2013**

CNRS
Ingénierie des
Matériaux Polymères

Laboratory Technician

Development and validation of a birefringence rheometer to study the photo-elastic behaviour of melted polymers.

LabVIEW monitored signal acquisition and time-frequency signal analysis under Scilab.

Grenoble, France

Master in Materials Science and Engineering
Grenoble Institute of Technology — 12 / 20

2014 - 2015
Adelaide, Australia

Bachelor of Science in Applied Physics
University of South Australia — 15 / 20

2011 - 2013
Saint-Etienne, France

University Diploma of Technology in Applied Physics
Jean Monnet University — 11 / 20

CERTIFICATES

April-May **2023**
The Hacking Project

Data Analysis
Basics of Python and libraries, SQL database modeling and design, data warehouses.
Data processing: data collection, cleaning, statistical analysis and visualization. Creation of dashboards, business intelligence, presentation of results. Notions of legality and GDPR. Consulting, Big Data and NoSQL databases.

April **2023**
The Hacking Project

Cybersecurity
Leaks exploitation (databases and user accounts), DNS scrawling, security vulnerabilities, hacking a blog, basics of cryptography, password encryption, hash, encoding, phishing and social engineering.

January-March **2023**
The Hacking Project

Web Fullstack
Basics of web: HTML, CSS, JavaScript, Bootstrap, Ruby, scrapping, terminal. Teamwork using Git and GitHub. Algorithms with Ruby, dynamic website with Ruby on Rails. Frontend HTML/CSS/JS. Team projects using agile methodology.
